INTUITIVE & SCIENCE-BASED LEADERSHIP FOR HIGH-PERFORMING PHYSICIANS & ORGANIZATIONS

"I believe that by working with physician leaders and healthcare organizations comprehensively, we can positively shift the healthcare landscape to foster engagement and resilience globally."

Affectionately called "The Healer's Healer," Dr. Katie Cole is an award-winning psychiatrist and consultant. Her innovative approach blends positive psychology, strength-based assessments, personal and professional development, and lessons learned from her own experience with burnout.

Dr. Cole's passion for physician and organizational wellbeing and resiliency is fueled by her struggle with feeling burned out in her career. This process led her to identify unique solutions for burnout and find her true passion in medicine: helping healers to heal themselves and the healthcare systems that foster burnout.
